Why can't I buy a PC (A PC note, not a mac) without Microsoft software installed? Why don't I have a choice?

frankly I don't care what you do in the settlement  
the whole world knows that Microsoft is run by crooks and sharks sponsored by crooks and sharks in government

over the next few years, people will gradually realise that they \*don't\* have to pay the MS tax,  
it is possible to do the same thing for free.
